

EMAW Testimonials

Collection for Inspiration

Glenn - Connecticut

I am so blessed by seeing lives change!

I just wanted to drop you a note to let you know that my first group is working through book two and my second group is on lesson three in book one. It is very humbling to see how Jesus is working in both groups!

I am so blessed by seeing them changing lives right before my eyes. Another group will start book one under the leadership of one of the men in my first group next week.

Thank you for the time and research put into the material and procedures. Several men have already commented that this is the best study that they have been a part of. Men are deepening their walk and yes, the wives have already commented on the changes they are seeing.

I am praising God for this opportunity to serve him through the materials you have created.

In July, I'll be traveling into Romania and Hungary. Do you have books in these languages? I've also recommended the materials to my friend who is church planting in Ecuador.

Thanks again for your dedication. Do you have mission opportunities?

Sincerely,

Glenn Horter
